

MAGMA
Fire Born Braking

**2014-2023 RAM ProMaster
1500, 2500, 3500
SEVERE DUTY DISC BRAKE PADS**

MAGMA Severe Duty Brake pads are ready to handle the harshest stopping conditions and keep coming back for more every time. Specially formulated, copper-free friction materials provide reliable performance in frequent stop, high-heat situations that push brake system temps to the limit. MAGMA's in-house friction specialists developed these exclusive Severe Duty formulas for extended pad life, and maximum durability making them the ideal choice for municipalities and fleets.

2022-2023 RAM ProMaster 1500, 2500, 3500 SEVERE DUTY Applications

Year Range:	Application:	Position:	MAGMA Part Number:	Description:	Note:
MAGMA Severe Duty Disc Brake Pads					
2022-2023	RAM ProMaster 1500, 2500, 3500	Front	MSD1540AM	MAGMA Severe Duty Brake Pads w/Hardware	All Models
2022-2023	RAM ProMaster 1500, 2500, 3500	Rear	MSD2467M	MAGMA Severe Duty Brake Pads w/Hardware	All Models
MAGMA Disc Brake Rotors					
2022-2023	RAM ProMaster 1500, 2500, 3500	Front	PMR145207	MAGMA Premium Brake Rotor	All Models
2022-2023	RAM ProMaster 1500, 2500, 3500	Front	PSR145207	MAGMA Pro-Series Coated Brake Rotor	All Models

MSD2467M

SEVERE-DUTY FRICTION COMPOUNDS

Specially formulated to deliver maximum durability and stopping power across a wide temperature range.

ADVANCED BRAKE SHIM TECHNOLOGY

Vulcanized rubber multilayer shims provide maximum vibration and squeal resistance.

PRECISION STAMPED BACKING PLATES

Precision stamped backing plates are clean and free of rough edges for a perfect fit, reducing noise and pad flex.

POST-CURED AND SCORCHED

Instant pedal feel and linear pad bite right out of the box.

HEAT-TEMPERED STAINLESS STEEL HARDWARE

Application-specific heat-tempered stainless steel hardware dampens vibration-induced brake noise.*

HIGH-HEAT BRAKE LUBRICANT

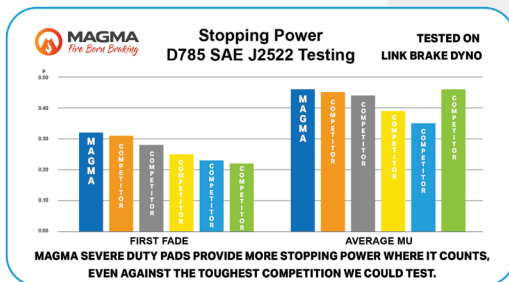

100% synthetic formula reduces noise and prevents pad binding at extreme temperatures.

COMPUTER-MIXED, POSITIVE MOLDED

Positive molding assures consistent material density, resulting in even wear and performance characteristics throughout the life of the brake pad.

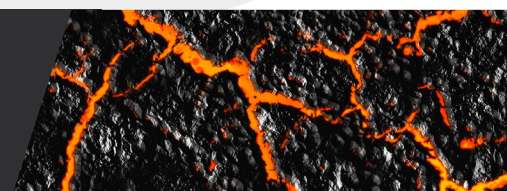

OE SLOTS, CHAMFERS, AND SENSOR HOLES

Easy installation, optimal fit and noise abatement.*

* WHERE REQUIRED

MAGMA USES FIRE TO FIGHT FIRE

Also Available for 2014-2023 RAM ProMaster 1500, 2500, 3500
