SEVERE DUTY DISC BRAKE PADS**

SEVERE DUTY Brake pads are ready to handle the harshest stopping conditions and keep coming back for more every time. Specially formulated friction materials provide reliable performance in frequent stop, high-heat situations that push brake systems to the limit.

- Extreme stopping power at high temperatures.
- Wide working thermal range.
- 100% Positive molded.
- Low pad and rotor wear.
- Premium, heat-tempered stainless-steel hardware.*
- Heavy-duty backing plates.
- TRELLEBORG multi-layer shims.
- OE style slots and chamfers.*
- High-heat brake lubricant included.
- Post cured and scorched.
- Copper-free.
- Ask for MAGMA MSD Severe Duty Brake Pads.

MAGMA Severe Duty Brake pads provide more stopping power where it counts, with increased MU (μ) and better fade resistance.

All MAGMA brake friction formulations comply with 2025 copper-free brake initiatives.
